

Wherever there is glass.... We can improve it.

Your Madico dealer is a professional window film installer who will help you choose the right film for your vehicle while complying with local window film laws. Your dealer will also explain the care and cleaning of your film so that you enjoy the benefits for as long as you own your car.

Each Madico automotive window film product is backed by a manufacturer's warranty. Please see your warranty for more information and coverage details.

## Premium Cars Need Premium Automotive Film

Technology meets style with Wincos performance automotive window films. Wincos offers drivers maximum infrared heat rejection without the look of dark, tinted glass. Its metal-free construction guarantees that it won't interfere with the sophisticated technology in vehicles today.

### Reduces Heat and Glare

Wincos reduces heat and annoying glare, making your car more comfortable to drive while requiring less air conditioning.

### Over 99% UV Protection

Too much ultraviolet light (UV) exposure can lead to sunburns and possibly skin cancer. Wincos offers protection from these harmful rays and maximizes infrared heat rejection.

### Minimizes Fading of Automotive Interiors

Protect your car's interior surfaces and upholstery from excessive UV exposure and the drying effects of the sun - even with lighter shades.

### Keeping Safety In Mind

In the event of glass breakage from an accident, window film holds broken glass together away from occupants.

### Enhances Vehicle Appearance

Wincos offers sophisticated style and is available in many shades to suit your individual driving needs.
