

Aeromark™

Madico's Aeromark is designed for internal insulation structures and decorative laminates. The product is conformable, can be printed on and is emboss-able. The product is lightweight, easy to clean, and is flame, chemical, moisture and scuff resistant. Product meets and exceeds FAA and EASA standards.

Material Construction:

- Adhesion promotion layerProprietary adhesive
 - Aluminum0.7 mil
 - AdhesiveProprietary adhesive
 - PVF (Clear aerospace grade)2.0 mil
- All thicknesses are based on nominal data.*

Applications:

- Aircraft interiors
 - Lavatories
 - Galleys
 - Bulkhead partitions
 - Surfaces requiring insulation and moisture barriers
- Train interiors
- Ship interiors

Benefits:

- Low moisture vapor transmission
- Dielectric / insulator
- UV stable
- Corrosion resistant
- Flame resistant
- Emboss-able
- Printable
- Self-cleaning
- Durable and scuff resistant
- Resistant to chemicals, cleaners and solvents
