Some Facts about our Sunscape Window Films

Sunscape window films from Madico filter out a high level of damaging UV rays. Madico window films have been tested and are NFRC certified to offer a UV rejection rate that meets or exceeds 99% on clear 1/8" glass.

Our highest UV rejecting film from our Madico Sunscape product line is the Starlite series, producing UV rejection between 99.6% and 99.9%. However, if higher light transmission is a significant factor, consider Madico Advanced Ceramic and Purelite series with UV rejection between 99.4%–99.9%. Advanced chemical technology enables Madico to offer very light films that maintain an excellent UV rejection.

Madico is an industry leader specializing in the development and manufacturing of window films for cars, homes and commercial buildings. For more than 100 years, Madico products like Sunscape window films have been respected around the world.
