WHEREVER THERE IS GLASS
WE CAN *improve* IT.

Professionally Installed

Madico Window Films are composed of thin layers of metallized and dyed, optically clear polyester laminated with special adhesives and protected by a durable, scratch-resistant coating. The film is generally installed to the inside of windows and doors, offering immediate protection from the harmful and uncomfortable effects of the sun.

Your local Madico dealer is a professional qualified to help you select the right film for your home.

Learn more about the complete line of Madico window films by visiting our website at www.madico.com.

A cost effective solution, with a manufacturer's warranty.

Madico Window Films cost less than you may think. They look great, are long lasting and guaranteed for as long as you own your home.* Madico Window Films are also scratch-resistant, so caring for them is a breeze. Another benefit is that they help hold glass together in case of accidents or severe weather, increasing your family's safety. Ask your Madico dealer to help you choose a window film that best fits your home. Make your living environment more beautiful, comfortable and energy efficient than ever before.

**Please consult your Madico dealer for detailed warranty information.*

Window Films

Protect what is most important to you.

Your home contains what you value most – your family and your belongings. Through the installation of Madico Window Films, you can create a more comfortable and safer living environment by reducing the heat, ultraviolet rays and glare coming through your home's windows. Madico film lets you enjoy your beautiful outdoor views and eliminates the need to close curtains or blinds to keep out the sun's powerful rays.

Madico Window Films block up to 80% of the sun's heat, dramatically lowering air conditioning costs. In the winter, the same film helps retain interior heat, reducing heating costs. Madico film improves the comfort of your home throughout the year. Installing Madico film makes your windows more energy efficient which does more than save you money on utility bills; conserving all that energy benefits the environment too.

Block 99% of harmful UV rays creating a more comfortable environment while preserving your interior furnishings and decor.

Madico Window Film blocks up to 80% of the sun's heat, significantly lowering air conditioning costs. In winter months, the same film helps retain interior heat.

Extend the life of valuable furnishings.

In your home, year after year, the sun's ultraviolet rays cause colors to fade, fabrics to fray, woods to crack. This damage to your furnishings, floorings and artwork becomes worse over time, and can never be reversed. But it can be significantly reduced with the application of Madico Window Films. They block 99% of those harmful UV rays, potentially saving you thousands of dollars in sun damage, while helping to preserve the beauty of your home – and your valued possessions – for as long as you own them.

Security for your family.

Not only does Madico Window Film offer protection from the sun's damaging UV rays, it also protects you and your family from flying glass fragments should a window in your home break. Glass related injuries can be easily prevented while improving the comfort and look of your home's windows.
