If there is an item you don’t see listed in this catalog, please ask us to special order it for you.

Note: Some items featured in this catalog may require extended shipping time.
GT026N - A-553P Injector Cartridge Knife
Used for film pattern-cutting and trimming. Holds five blades for automatic blade replacement. (Knife comes with 5 30° angle blades.)

GT027 - NT Pro A1 “Red Dot” Knife
The blade can be advanced in 1/2 segment increments for precision control. Right or left-handed use. Stainless steel blade.

GT111 - Auto Lock 8 Pt. Knife
Heavy-duty knife with breakaway points for use with security films 7 mil or greater. Blade storage in handle. Uses GT112 blades.

GT126 - Olfa® “Silver” Stainless Steel Knife
The original Olfa stainless steel knife.

GT127 - Olfa Yellow A1 Knife
Used for film pattern cutting and trimming. Features a molded plastic handle for maximum control and comfort. Right or left-handed use.

GT226 - Olfa “Silver 2” Auto-Lock Knife
Features right or left-handed use, blade position auto-lock, and one-segment click action. Stainless steel blade.

GT727 - Olfa XA1 Ergonomic Knife
This ergonomically correct knife features a comfortable rubber grip for better control and less fatigue.

GT944 - Automotive Glass Edge Trimmer
Ensures precise “micro-edge” along the top of roll-down windows. Uses GT135, 1° single-edge blades.

GT984 - NT A1000RP Knife
Cartridge cutter with aluminum die-cast grip. Cartridge holds up to five blades.

GT1019 - NT LS000RP Heavy Duty Knife
NT heavy duty knife with ratchet auto-lock slider which locks the blade into place while cutting. Blade storage in the handle. Use with 7 mil or greater films. Uses GT112 blades.

GT1051 - Olfa SAC1 Stainless Steel Graphics Knife
Slim stainless steel body with a 30 degree angle blade for precision in pattern cutting. Great for graphics and paint protection. Use GT1052 replacement blades.

Note: All knives come packaged with carbon blades unless otherwise noted.

Use a sharp blade every time to help avoid accidentally scratching the application surface by pushing down too hard on a dull blade. Be safe – always dispose of used blades by wrapping them in tape or depositing them into a blade collection container.

GT105 - 4” Scraper Blades - Carbon, Pack of 10
Fits the GT104 4” scraper.

GT108 - 6’’ Triumph Carbon Scraper Blades, Pack of 25
Double-edged for more efficient use, these blades fit any of the standard 6” Triumph scrapers.

GT108SS - 6” Triumph Stainless Steel Blades, Pack of 25
Long lasting, rust resistant, double-edged blades. Fits any standard 6” Triumph scraper.

GT108SS- HD - Triumph Heavy Duty Stainless Steel Blades, Pack of 25
The heavy-duty version of the 6” Triumph blade. Perfect for those tough jobs.

GT110 - Heavy Duty Triumph Blades, Carbon, Pack of 10
Replacement blades for GT106, Red Heavy Duty Triumph scraper. Thicker blade for those tough jobs.

GT112 - Olfa UltraMax Bpt. Blades, Pack of 50
Triple-honed for extremely sharp edge. Ideal for cutting thick films, 7 mil or greater. Pack of 50.

GT115 - Olfa Stainless Steel Snap Blades, Pack of 10
Great for film and pattern cutting. Thirteen cutting edges per blade. Use in most standard duty knives.

GT116 - Olfa Stainless Steel Snap Blades, Pack of 50
The 9mm blade fits most standard duty knives and features thirteen cutting edges per blade.

GT123 - Olfa Carbon Snap Blades, Pack of 50
The 9mm blade fits most standard duty knives and features thirteen cutting edges per blade.

GT135 - Bladeater Pro
Designed for professional installers, the Bladeater Pro holds your knife safely and securely and allows you to easily snap off and discard used blades into the replaceable well. Once the well is full, you can throw it away.

GT134 - Bladeater Pro Replacement Well
Disposable replacement well for the Bladeater Pro. Simply fill with used blades and safely throw away.

GT140 - 1” #9 Single Edge Blades, Carbon, Pack of 100
Use in any 1” blade holder. Stainless steel, uncoated.

GT140-12 - 1” #12 Single Edge Blades, Carbon, Pack of 100
A thicker version of the popular #9 blade.

GT211 - 3” Triumph Blades, Carbon, Pack of 10
For use in the 3” Triumph scraper, GT210.

GT1027 - 4” Scraper Blades, Pack of 10
Carbon steel. (0.11 mm x 4”)

GT1052 - A11608 Carbon 30 Degree Snap-off Blades, Pack of 10
Standard duty acute angle snap-off blade for use when precision is a must. Seven cutting edges per blade strip. Fits GT1051.
**Scraper**

**GT104 - 4” Scraper With Extended 12” Handle**
Longer handle allows for even more leverage. Use GT105 for replacement blades. Includes blade cover.

**GT106 - 6” Red Heavy Duty Scraper**
Ideal for film removal. Uses GT10 Heavy Duty Triumph Blades. Includes double-edged blade and cover.

**GT107 - 6” Triumph Scraper**
This lightweight scraper includes a double-edged blade and cover.

**GT107A - 6” Angled Triumph Scraper**
The handle has a 30 degree angle. Includes a double-edged blade and cover.

**GT107PC - 6” Triumph Scraper With Slide Cover**
This is the new and improved version of the slide-covered Triumph scraper. With a bigger button and smoother action, the cover easily opens and closes with no hassle. No more fumbling with a separate blade cover, which is safer and more convenient, especially when doing ladder work. Great for regular window cleaning, but not recommended for stripping old film.

**GT109 - 1” Clip Scraper**
This effective scraper will accommodate standard 1” single-edge blades, plastic blades or even a “Lil Chizler.

**GT138 - Heavy Duty 1” Razor Scraper**
Retractable safety scraper with intermediate blade position keeps the blade from sliding out while in use.

**GT210 - 3” Triumph Scraper**
Smaller version of the regular 6” Triumph scraper. Designed to fit more easily into corners.

**GT212 - 1” Mini Scraper (assorted neon colors)**
Uses standard 1” blades. Great for getting into tight spaces.

**GT983 - 6” Ergonomic Triumph Scraper**
Rounded corners for a more comfortable grip. Includes cover and a double-edged blade.

**GT983A - 6” Angled Ergonomic Triumph Scraper**
Angled for a better performance in tight spaces. Includes cover and a double-edged blade.

---

**GT037 - 6” Ergonomic Triumph Scraper**
Uses standard 1” blades. Good for getting into tight spaces.

**GT041 - 8” Silver Security Squeegee Replacement Blade**
This blade is included.

**GT042 - 8” Silver Security Squeegee**
Comfortable, ergonomic handle is designed especially for security film installation. Curved handle applies more pressure to surface, reducing fatigue and ensuring easier, better installations. Blade is replaceable with either the Security Squeegee (GT041), or Pro Squeegee (GT060) blades. GT041 blade is included.

**GT043 - Big Foot**
Designed to more easily remove water from the lower portion of rear window glass, this squeegee measures a full 15” long and features a flexibl e, firm blade. The handle features SofTac grip material for better control.

**GT044 - Little Foot Red, GT044BLK - Black & GT044BLU - Blue**
These squeegees feature a unique shape which allows for better handling in tight spots such as the corners of rear windows and around gaskets. Just like the Big Foot without the handle. 6” long on usable edge.

**GT045 - 140” Squeegee Blade Refill**
Replacement blades for Unger squeegee channel. Used for window cleaning, not installation.

**GT046 - 12” Squeegee Blade Refill**
**GT047 - 18” Squeegee Blade Refill**
**GT050 - Unger Pro Handle**
For use with the GT053, GT054 or GT056 stainless steel channel with black rubber blade for cleaning or blue blade (GT118) for installation.

**GT050A - Unger Pro Handle (sword back)**
A modified Unger handle that has proven results for maximum water extraction. For flat glass applications use the new Embuder channels (GT222 & GT223). This handle also works well with the Super Clear Max, Blue Max and Orange Craft Squeegees.

**GT050E - Unger ErgoTec Handle**
Features a spring mechanism for quick blade changing and a finger indent on top of the handle for complete control. For use with GT053, GT055 and GT056 channels with blue rubber for cleaning or blue replacement blades (GT118) for installation.

---

**GT040A - 5” Squeegee Blade Refill**
Uses GT110 Heavy Duty Triumph Blades.

**GT035A - 3” Narrow Squeegee**
Great for reaching into tight areas.

**GT036 - Whale Tail Handle**
Great for getting behind brake lights during rear window installations and other hard-to-reach areas. Finger holes make holding onto the Tail Fin easy.

**GT037 - Fusion Hand Dee Tool**
The Fusion Hand Dee Tool is a magnetic handle that can accommodate any 5” x 7” squeegee. Equipped with a removable “jaw” and a rounded grip to fit perfectly in your hand. Can be used with any 5” squeegee blade.

**GT040 - Slim Foot**
Modelled after the Big Foot Squeegee, the Slim Foot has a slender design that can reach into tighter openings. This re-usable squeegee helps reach behind brake lights and has a rubber grip for secure handling. Measures 15” from blade tip to handle end.

---

**GT050**
Try the softer GT052G Tail Fin for paint protection installations.

GT053 - 6", GT054 - 8" GT055 - 12", GT056 - 18": Squeegees & Channel Stainless Steel channel and soft rubber squeegee blade insert for use with the Unger Pro Handle (GT050). Used for cleaning during flat glass installations.

GT057 - 5": Fusion Stretch Handle
The 5” Fusion Stretch handle is the latest design for installing flat glass and security films. This handle features a 14-1/2" metal extension and two rubber grip sections for maximum water removal.

GT058 - 8": Fusion Stretch Handle
GT059 - 8": Flatfoot Squeegee Blade
Specially angled blades for the Pro Squeegee (GT062 or GT064). The angle is designed to maximize the surface area in contact with the film, thereby removing much more mounting solution than a standard Pro blade with a square edge.

GT060 - EZ Wing Lime (Flex Firm)
Unique channel tip that enables you to flip it over to chisel out those stubborn creases or dust spots. It also has increased stiffness across the nose of the tool. This will allow you to apply more pressure out at the tip in those situations where you are reaching into a tight spot.

GT061 - 8" Pro Squeegee Blade Replacement blade for 8" Pro Squeegee (GT064). Used for removing application solution from beneath the film during flat glass installation.

GT062 - 6" Pro Squeegee Deluxe An installation squeegee as a ready-to-use assembly. Used to remove application solution from beneath the film during flat glass installations.

GT063 - 6" Pro Squeegee Blade Replacement blade for 6" Pro Squeegee (GT064). Used for removing application solution from beneath the film during flat glass installation.

GT064 - 8" Pro Squeegee Deluxe An installation squeegee as a ready-to-use assembly. Used to remove application solution from beneath the film during flat glass installations.

GT091 - Slammer Used for cleaning corners and along gaskets, wicking water out along borders and easily reaching rear windows.

GT092 - Shuttle A hard card with the ability to reach into tight areas located at the bottom edge of rear window glass.

GT117 - Blue Max 5" Hand Squeegee Installation squeegee for automotive and flat glass applications. Harder than GT203, these tools are excellent for water evacuation.

GT117-8 - Blue Max 8" Hand Squeegee The favored Blue Max installation squeegee is now available in 8" making it perfect for flat glass installs! Use this blade in the 8" Fusion Handle (GT1046) for great water extraction.

GT117A - Angled Blue Max 5" Hand Squeegee Angled version of the Blue Max 5" Hand Squeegee.

GT117B - Square Blue Max 5" Hand Squeegee Ideal for installing security film.

GT118 - 120" Blue Squeegee Refill Use in the Unger squeegee channel as a finishing squeegee for maximum water removal. Used as a replacement blade for GT207.

GT122
GT122 - Blue Max Squeegee with Handle New and improved handle makes this installation squeegee a must have. This unit is sold as a complete set with the GT117A only.

GT145 - 18-1/2" Yellow Turbo Squeegee Used for removal of application fluid during installation.

GT147 - 18-1/2" Yellow Turbo Squeegee Replacement Blade Economy size squeegee usually cut to shorter lengths before use. Used for removal of application solution during the installation process.

GT148 - 6" Block Squeegee
GT149 - 12" Block Squeegee
GT150 - 18" Red Turbo Squeegee Used for removal of application solution during the installation process.

GT151 - Yellow Quick Foot (Firm) The Quick Foot is a firm squeegee with a handle for jobs that require medium reach. Comes in firm, flex firm and soft for all applications.

GT151B - Blue Quick Foot (Soft)
GT151W - White Quick Foot (Flex Firm)

GT153 ORANGE - Grip-N-Glide Orange (Soft) New Grip-N-Glide combines an ergonomic grip with high performance, interchangeable blades to give you just what you need for tint, wrap and PPF installations.

GT153 YELLOW - Grip-N-Glide Yellow (Flex Firm)

GT154 ORANGE - Grip-N-Glide Replacement Blade, Orange (Soft) The Grip-N-Glide features a 24° thick squeegee blade with French edges that are machine milled for maximum water extraction.

GT154 Yellow - Grip-N-Glide Replacement Blade, Yellow (Firm)

GT157 - The Reach The Reach allows you to squeegee water from the bottom of the back window or windshield with ease. Made from special plastic and rubber, this 16-3/4” long, four-sided squeegee features dual durometer edges for maximum installation flexibility.

GT202 - The Conqueror (Soft) The Conqueror is the original corner reaching tool. Features a soft squeegee blade along one edge and a pointed hard card tip making it a versatile tool for any job.

GT202B - Blue Conqueror (Firm) Same as the original Conqueror with a slightly harder durometer for more squeegeeing power.

GT203 - Super Clear Max Squeegee Blade

GT203A - Angled Super Clear Max Squeegee Blade Softer version of the Blue Max squeegee; more flexible for near window installations.
GT205 - The Bulldozer I - Automotive

New and improved handle makes this installation squeegee a must have. This unit is sold as a complete set with the GT203A only.

GT205 - The Bulldozer II - Automotive

Allows you to get into those hard-to-reach areas such as behind speakers, brake lights and low-angled rear windows. Features a 6" squeegee blade and is 15" in overall length.

GT206 - The Bulldozer II - Flat Glass

Features reinforced ribs on the back side for extra rigidity and leverage. Includes a 6" squeegee blade and is 15" in overall length.

GT207 - Side Squeegee with blade

6" squeegee used to help you reach into corners and odd angles. Use GT118 as a replacement blade.

GT225 - 5-1/2" Yellow Turbo Squeegee

An installation squeegee used to remove application solution during installation of all auto and paint protection films.

GT226 - 5-1/2" Yellow Turbo Squeegee - Blade Only

GT225 - The Extruder, 6" Extruder Channel Only

The channel works in your existing Unger handles, but it is fully designed to give the blue squeegee blade added stiffness and a better angle to aid in laying down the film and extracting more water per squeegee pass. Use GT118 as a replacement blade.

GT225 - The Extruder, 8" Extruder Channel Only

GT254 - Power Stroke Blue, 96 Durometer (Hard Flex)

The original hand held molded squeegee, designed to fit comfortably in your hand. Measures 3.7" from tip to tip. Blue has a durometer for the ultimate in moisture removal, especially for spotted films.

GT256 - Power Stroke Blue, Soft Flex

Yellow Power Stroke works well with dyed films and first pass on metal films. These blades help expel water from under film while keeping their strength. The new rubberized, heat resistant material is designed to squeegee water moisture removal, especially for sputtered films.

GT257 - 5" Orange Crush Squeegee

Three blades help expel water from under film while keeping their strength. The 5" Cropped Orange Crush conforms to curved glass. Blades can fit into a handled grip (GT1046, GT1047 or GT1058) or can be used alone.

GT258 - 5" Cropped Orange Crush

GT259 - 8" Orange Crush

GT260-Y5 - 5" Yellow Flat Out Blade

The Yellow Flat Squeegees are available in both 5" and 8" lengths. Slightly harder than the Orange Crush and comparable to hardness in the Blue Max products, they work great in flat glass and security applications. For best results try in Fusion Handle, Fusion Stretch series and Thor’s Hammer.

GT261-8Y - 8" Yellow Flat Out Blade

GT265 - Performa Handle

Ideal for water extraction when used with GT117, GT118 and GT303 blades.

GT1006 - Thor’s Hammer

Use for 6mil+ safety film installations, and final pass on slow drying thin films.

GT1022 - Stroke Doctor

Designed with I-beam construction handle and features an ergonomic, slip-resistant grip and longer blade to apply squeegee pressure more evenly in the most hard to reach places.

GT1022B - Stroke Doctor Replacement Blade

GT2063 - Tri-Edge X Yellow

GT2063 BLUE - Tri-Edge X Blue (Soft)

GT2063 ORANGE - Tri-Edge X Orange (Hard)

GT2057D - Dual Density Go Doctor Replacement Blade

GT2057E - Dual Density Go Doctor Replacement Blade

GT2057F - Dual Density Go Doctor Replacement Blade

GT2057G - Dual Density Go Doctor Replacement Blade

GT2057H - Dual Density Go Doctor Replacement Blade

GT2057I - Dual Density Go Doctor Replacement Blade

GT2057J - Dual Density Go Doctor Replacement Blade

GT2057K - Dual Density Go Doctor Replacement Blade

GT2057L - Dual Density Go Doctor Replacement Blade

GT2057M - Dual Density Go Doctor Replacement Blade

GT2057N - Dual Density Go Doctor Replacement Blade

GT2057O - Dual Density Go Doctor Replacement Blade

GT2057P - Dual Density Go Doctor Replacement Blade

GT2057Q - Dual Density Go Doctor Replacement Blade

GT2057R - Dual Density Go Doctor Replacement Blade

GT2057S - Dual Density Go Doctor Replacement Blade

GT2057T - Dual Density Go Doctor Replacement Blade

GT2057U - Dual Density Go Doctor Replacement Blade

GT2057V - Dual Density Go Doctor Replacement Blade

GT2057W - Dual Density Go Doctor Replacement Blade

GT2057X - Dual Density Go Doctor Replacement Blade

GT2057Y - Dual Density Go Doctor Replacement Blade

GT2057Z - Dual Density Go Doctor Replacement Blade

GT2058 - Fusion Grip 5" Short Handle

GT2059 - Fusion Grip 5" Short Handle

GT2060Y - Blue Go Doctor (Firm)

GT2060Y - Red Go Doctor (Soft)

GT2066B - Blue Go Doctor (Firm)

GT2066B BLUE - Tri-Edge X Blue (Soft)

GT2066B ORANGE - Tri-Edge X Orange (Hard)

GT2066B - Tri-Edge Plus features a rubber squeegee edge.

GT2066B BLUE - Tri-Edge X Blue (Soft)

GT2066B ORANGE - Tri-Edge X Orange (Hard)

GT2066B - Tri-Edge Plus features a rubber squeegee edge.

GT2066B BLUE - Tri-Edge X Blue (Soft)

GT2066B ORANGE - Tri-Edge X Orange (Hard)

GT2066B - Tri-Edge Plus features a rubber squeegee edge.

GT2066B BLUE - Tri-Edge X Blue (Soft)

GT2066B ORANGE - Tri-Edge X Orange (Hard)

GT2066B - Tri-Edge Plus features a rubber squeegee edge.

GT2066B BLUE - Tri-Edge X Blue (Soft)

GT2066B ORANGE - Tri-Edge X Orange (Hard)

GT2066B - Tri-Edge Plus features a rubber squeegee edge.

GT2066B BLUE - Tri-Edge X Blue (Soft)

GT2066B ORANGE - Tri-Edge X Orange (Hard)

GT2066B - Tri-Edge Plus features a rubber squeegee edge.

GT2066B BLUE - Tri-Edge X Blue (Soft)

GT2066B ORANGE - Tri-Edge X Orange (Hard)

GT2066B - Tri-Edge Plus features a rubber squeegee edge.

GT2066B BLUE - Tri-Edge X Blue (Soft)

GT2066B ORANGE - Tri-Edge X Orange (Hard)

GT2066B - Tri-Edge Plus features a rubber squeegee edge.
GT068 - Hard Card Sharpener
A must-have item for keeping hard card edges smooth.

GT079 - 4” 3M™ Gold Squeegee

GT080 - 4” 3M™ Blue Squeegee

GT083 - Lil’ Chizler
Ideal for removing decals, film or adhesive from sensitive surfaces. Use for pressing down small film creases or air bubbles.

GT083W - White Chizler
The White Chizler is slightly larger, has thicker edges and is harder than the original pink Lil Chizler.

GT086 - White Hard Card Squeegee
GT086BLK - Black Hard Card Squeegee
GT086BLU - Blue Hard Card Squeegee
GT086GLD - Gold Hard Card Squeegee
GT086PINK - Pink Hard Card Squeegee
GT086PURPLE - Purple Hard Card Squeegee
GT086PLT - Platinum Hard Card Squeegee
GT086-6W - 6” White Hard Card Squeegee

GT087 - Yellow Lidco Squeegee

GT2072-4 - 4” Lime Speed Wing (Hard)
The Speed Wing is designed with “wings” to enable the installer to reach areas typically out of the reach of most bump, bondo, Teflon and hard cards. The Speed Wing comes with one flat edge and one curved edge. Speed Wing is made from materials that enable it to slide across most film surfaces easily while maintaining its rigidity to lay the material flat and remove moisture or air trapped underneath.

GT2072-6 - 6” Lime Speed Wing (Hard)

GT2072-8 - 8” Lime Speed Wing (Hard)

GT2076-4 - 4” Lemon Speed Wing (Flex Firm)
GT2076-6 - 6” Lemon Speed Wing (Flex Firm)
GT2076-8 - 8” Lemon Speed Wing (Flex Firm)

GT2077-4 - 4” Cherry Speed Wing (Soft)
GT2077-6 - 6” Cherry Speed Wing (Soft)

GT2077-8 - 8” Cherry Speed Wing (Soft)

GT2081B - Smooth-it With Grey Mat
This tool is designed to effectively and evenly smooth out the edge of most tools used for film installation. It works great on plastic and rubber tools. The black mat is a medium fabric that works best and faster on big or deep scratches in the tool’s edge. Replacement mats can be purchased as part GT2082B.

GT2081G - Smooth-it With Grey Mat
This tool is designed to effectively and evenly smooth out the edge of most tools used for film installation. It works great on plastic and rubber tools. The grey mat is a fine fabric that is ideal for removing small or light scratches from the tool. Replacement mats can be purchased as part GT2082G.

GT2082B - Smooth-it Black Mats (3 replacement pieces)
GT2082G - Smooth-it Grey Mats (3 replacement pieces)

GT2085 PINK - Fusion Pink Turbo Pro 3-1/2”
Features large, grey handle. 77 durometer. Super soft, recommended for paint protection films and cleaning.

GT2085 YELLOW - Fusion Yellow Turbo Pro 3-1/2”
Features large, grey handle. 85 durometer. Recommended for vinyl applications and areas that require more pressure.

GT2087 PINK - Fusion Pink Turbo Pro 5-1/2”
Features small, white handle. 77 durometer. Super soft, recommended for paint protection films and cleaning.

GT2087 YELLOW - Fusion Yellow Turbo Pro 5-1/2”
Features small, white handle. 85 durometer. Recommended for vinyl applications and areas that require more pressure.
Hard Cards

- GT077 - Film Opaquer Pen - Broad Point
  - Used by installers to hide fine line mistakes in trimming which causes excess light intrusion at the film edge.
  - Helps reduce scratching of automotive films on some vehicle roll-downs.
  - Handy for 3 basic purposes:
    1) Marking film prior to installation of windows with unusual shapes (arches, trapezoids, etc.) which must be cut to approximate shape before the final "lay-up."
    2) Circling a contaminant (hair or fiber) before pulling back the film to remove it.
    3) Marking film edges to check for glass movement on side roll-ups during the trimming process. Yellow grease mark easily wipes away.

- GT076 - Film Opaquer Pen, Thin Point
  - For use with GT070.
  - Goes with GT097, 32 oz. spray bottle.
  - Handy for 3 basic purposes:
    1) Marking film prior to installation of windows with unusual shapes (arches, trapezoids, etc.) which must be cut to approximate shape before the final "lay-up."
    2) Circling a contaminant (hair or fiber) before pulling back the film to remove it.
    3) Marking film edges to check for glass movement on side roll-ups during the trimming process. Yellow grease mark easily wipes away.

- GT075 - Yellow Film Marker
  - For use with GT070.
  - Goes with GT097, 32 oz. spray bottle.
  - Handy for 3 basic purposes:
    1) Marking film prior to installation of windows with unusual shapes (arches, trapezoids, etc.) which must be cut to approximate shape before the final "lay-up."
    2) Circling a contaminant (hair or fiber) before pulling back the film to remove it.
    3) Marking film edges to check for glass movement on side roll-ups during the trimming process. Yellow grease mark easily wipes away.

Installation Accessories

- GT090 - Towel Dispenser
  - Center Pull Towels, 2 Ply, 8" x 605', 660 sheets/roll, 3" core diameter.

- GT096 - Virtually "Lint Free" Reusable Wipes
  - Great for cleaning windows before installation.

- GT085 & GT085 THK
  - Great for cleaning windows before installation.

- GT078-75 - 1-1/2" Black Acrylic Felt - 50' Roll
  - Helps reduce scratching of automotive films on some vehicle roll-down windows.

- GT085 - White Scrub Pads
  - For hiding larger gaps after trimming.

- GT078-75 - 3/4" Black Acrylic Felt - 50' Roll
  - Helps reduce scratching of automotive films on some vehicle roll-down windows.

- GT076 - Film Opaquer Pen, Thin Point
  - Used by installers to hold fine line mistakes in trimming which causes excess light intrusion at the film edge.

- GT077 - Film Opaquer Pen - Broad Point
  - For hiding larger gaps after trimming.

- GT090 - Sprayer Master Bottle & Trigger
  - An overall heavy-duty sprayer, this sprayer bottle comes with a five-year warranty and is chemically resistant. It is equipped with a strong trigger and holds 32 ounces.

- GT094 - PolySpray 2
  - The pressurized spray bottle holds 1.25 liters (42 oz.) and reduces "finger fatigue," eliminating the need for pumping while spraying. Handy for large windows and long-duration sprays. Adjustable spray nozzle.

- GT097 - 32 Oz. Spray Bottle
  - Goes with GT090, adjustable spray trigger.

- GT099 - Virtually "Lint Free" Reusable Wipes
  - Great for cleaning windows before installation.

- GT085 & GT085 THK
  - Great for cleaning windows before installation.

- GT078-75 - 3/4" Black Acrylic Felt - 50' Roll
  - Helps reduce scratching of automotive films on some vehicle roll-down windows.

- GT085 - White Scrub Pads
  - For hiding larger gaps after trimming.
Installation Accessories

GT101 - Replacement Spray Gun for GT101-N
GT101-N - Stainless Steel 5 Gallon Sprayer
Deluxe pressure sprayer holds up to 5 gallons of mounting solution in a stainless steel tank. The hose can reach up to 25 feet. Fill with solution and pressurize with air from any compressor. Flexible hose reaches into cars or stretches up the ladder with you.

GT108 - 3-Gallon Sprayer
GT109 - 5-Gallon Sprayer
GT110 - 8-Gallon Sprayer

GT101-H - Gilmore Nozzle
Brass tip Gilmore nozzle. Use with flex line hose. (Does not fit on the GT101-HG hose.)

GT101-HG - Replacement Hose and Spray Gun for GT101N 29” coiled hose.

GT1038-HG - Gilmore Nozzle and Hose Assembly
15’ flex line hose and Gilmore nozzle assembly for 5 Gallon Stainless Steel Sprayer.

GT102 - Orange 3 Gallon Pressure Sprayer
Essential for those big commercial jobs. Long 13’ hose allows great mobility and the large tank capacity provides uninterrupted and fatigue-free installation.

GT102-P - Replacement Pump for Orange 3 Gallon Sprayer
Replacement pump for GT102.

GT2012 - Nozzle for Pressure Sprayer (GT102)
Replacement nozzle for the GT102, 3 Gallon Pressure Sprayer.

GT130 - Gasket Wizard
This device is used to carefully pull back gaskets for easy installations below the gasket. Ribbons are located at the base of all automotive window glass for weatherproofing and can get in the way of installation. Many installers find the Gasket Wizard helpful even without the use of the bungee cords.

GT132 - Hook Tool
Use this to pull back rubber gaskets on car windows so you can tuck film below the seal.

GT157 - 1/2” Black Out Tape, 150’ Roll
Black matte vinyl tape used to hide small light gaps along edges.

GT158 - 1” Black Out Tape, 150’ Roll

GT159 - 1-1/2” Black Out Tape, 150’ Roll

GT160 - Film Guard, 19 oz.
Used after film installations as a cleaner and polish. Helps reduce friction and condensation between film and rubber gaskets on roll-down windows.

GT162P - Easy Stripper II Adhesive Remover, Gallon
Used to soften film adhesive left on glass. Caution: GT162P contains chemicals which may damage some car interiors.

GT167 - Waist Apron, Black (plain)
Heavy duty waist apron for easy access to tools while on the job. Features 3 pockets and loops on each side for sprayers.

GT176 - Waist Apron, Black Out Tape, 150’ Roll
GT157 - 1/2” Black Out Tape, 150’ Roll
GT158 - 1” Black Out Tape, 150’ Roll
GT159 - 1-1/2” Black Out Tape, 150’ Roll
GT160 - Film Guard, 19 oz.
GT162P - Easy Stripper II Adhesive Remover, Gallon
GT163 - 12” Triangle
30/60 degrees with circle templates.
GT164 - 8” Triangle
30/60 degrees with circle templates.

GT186 - 8” Triangle
GT187 - 12” Triangle

GT190BLACK - Black 5-Way Trim Guide
GT190WHITE - White 5-Way Trim Guide
Use these tools as a trim guide or wrap in paper towels and use as a bump tool. Each of these offers unique shapes and corners.

GT190Black - Black 5-Way Trim Guide
The GT190 White even features a ruler.

GT191 - The Edge Tool
A convenient trim guide or use the curved edge to pull back gaskets.

GT194 - Gasket Push Stick
GT194BLUE - Blue Gasket Push Stick

GT209 - The Scrubber
Used to reach behind brake lights and speakers. Easily scrub away adhesive along the bottom of sloped back windows. Uses standard white scrub pads (GT085) cut to 2” x 3” size. The overall size of this tool is 3” wide by 15” long.

GT205 - Wagner HT1000 Heat Gun (120-Volt)
Standard heat gun for low, medium and high settings.

GT201 - Wagner HT3500 Digital Heat Gun (120-Volt)
This model allows you to heat shrink in low or high fan speeds and has a variable temperature setting to fine-tune the amount of heat needed for specific applications.

GT715 - Sprayway® Glass Cleaner, 19 oz.
Ammonia-free aerosol spray used for cleaning filmed surfaces after installation.

GT724 - Jiffy Steamer Film Remover
The Jiffy Steamer is a commercial-grade steamer that is impact resistant with a 1300-watt heating element. It heats up in two minutes and provides up to two hours of steam per fill-up. Great for removing film and adhesive from rear automotive windows. (120-Volt. Alternate voltage available upon request.)

GT981 - “Do Not Roll Down” Window Stickers (1000/Roll)
Features low-tack adhesive for easy removal by the customer.

GT991 - Impact Jr. Pump-Up Sprayer
Pressurized spray bottle that holds 48 ounces and reduces “finger-fatigue,” eliminating the need for pumping while spraying via a simple trigger. Has adjustable spray nozzle.

Tip: 5-Way tools are also effective as edge squeegees when wrapped with low-lint towels for absorbing extra moisture along the edges of glass.

Tip: Use chemicals with caution. Take care to protect your skin as well as surrounding surfaces. Always keep a few wipes or paper towels handy to catch any spills.
GT1034 - Dot Devil Glass Prep Solution, 32 oz.
Dot matrix prep solution used to aid film adhesion on dot matrix areas of glass on auto installs.

GT1035 - Blue Slip-up Cleaner/Application Solution, Gallon
Lubricant for easier film installation.

GT1036 - Simple Pink Adhesive Remover, Gallon

GT1066 Copper Mesh Pad
The Copper Mesh Pad is for dot matrix prep ONLY! It will ABSOLUTELY scratch glass.

GT1067 Mercury Pro Plus Trigger & Bottle
The next generation in spray bottles, the Mercury Pro Plus features Viton® seals and a double action pump that sprays both when you pull back and when you release the trigger giving you more liquid with each pull. This lightweight, ergonomic trigger/bottle combo holds up to 1-liter (33 ounces) of fluid.

GT1090 - Ergodyne Waist Apron
13 pocket, heavy duty tool apron with 2 loops for spray bottles and adjustable buckle closure.

GT1096 - Do Not Roll Down Tape, Roll
Approximately 200 stickers per roll.

GT2021 - Teflon Tape, 3/4" x 12 Yards
Teflon tape is the ultimate product for making your application squeegees glide smoothly and safely across window film, paint protection film, car wraps and vinyl graphics.

GT2121-4 - Teflon Tape, 3/4" x 4 Yards

MOLD5 - Molding & Trim Removal Tools, 5 Pieces
The kit includes five distinctive tools for the easy removal of body fasteners, interior trim pieces, exterior body moldings, wheel hub caps, etc. Made from heavy-duty plastic to prevent scratching and damage to vehicle surfaces.

MOLD11 - Molding & Trim Removal Tools, 11 Pieces
This expanded trim removal kit includes eleven tools and comes with a carrying case.

SS-OQ - Soak Shield Rope Original
The window tinting industry’s first and only absorbent rope braid used for absorbing water running down behind the dash of a vehicle while installing film. Help protect electronics and other parts from water damage by tucking the rope between the bottom of the windshield and the dashboard.

GT1002CH - Clean Cut Box Slitter Channel
Aluminum U-channel for sliding over the edge of a film box top to serve as a straight edge when making horizontal cuts (across the web width) after pulling film out to desired length. Handy for in-field work. Saves the cost of more expensive film cutters.

GT910 - 60" Film Handler
Film Handler slitters help reduce waste and save time by helping you make straight, accurate cuts. Uses both metric and imperial measurements. Film Handler can be wall-mounted for use in automotive shops. Note: Ladder not included.

GT912 - Film Handler Cutter Assembly
Blade assembly (GT910 & GT911 Film Handlers). This is the base and swivel head of the blade holder.

GT913 - 12" Film Handler Riser Assembly (Pair)
For security film with 6" cores. Sold as a pair. 12" risers accommodate film on 6" cores.

GT914 - 1/8" Cutter Shim for 3" Hubs (Each)
GT942 - 1/4" Cutter Shim for 3" Hubs (Each)

GT986 - Film Handler Blade Holder
This is the swivel head portion of the blade holder. Note: To prevent damage to your Film Handler cutter head/blade holder always move the blade holder from the base not by the swivel head.

GT1002 - Clean Cut Box Slitter (36", 48", 60", 72")
The new and improved bar is an alloy U-channel in a brushed finish. The bar has a ruler across the top edge for precise measuring and placement of the cutter head. The bar fits securely on the edge of the inner product box to keep everything from moving while making your cut. Simply line the edge of the film up with the zero mark on the ruler and press the bar down on the box. The U-channel can also be used as a straight cutting edge when you are ready to cut the film out of the box.

GT1002B - Clean Cut Replacement Blades, 5 Pack
A five pack of replacement blades for the Clean Cut Cutter Head (GT1002CH).

GT1002CH - Clean Cut Cutter Head
Cutter head assembly for the clean cut box slitter. The Clean Cut Cutter Head is now machined from a composite with two neodymium magnets that provide tremendous attachment to the Clean Cut Bar. The Cutter Head will fit firmly on the back side of the Clean Cut Bar at the measurement you would like to slit the film. Once you have the Cutter Head in place, simply slide the material through the slot and pull to create a clean cut edge.

GT1002T - Clean Cut Box Tray
Allows film boxes to be mounted on top of a ladder.

Using a film cutting system can save time and money by reducing waste and ensuring more accurate cuts. Be sure to keep your blades sharp and always dispose of used blades safely.

Tip:
Paint Protection & Vinyl Tools

GT119 - 4" Tube Squeegee
Soft black squeegee with grey PVC handle.

GT120 - 9" Black Smoothie Tube Squeegee

GT121 - 28" Black Smoothie Tube Squeegee

GT146 - 28" Black Smoothie Replacement Blade
Squeegee tool used for glass cleaning; sometimes called the "Smoothie." Economy size usually cut to shorter lengths before use.

GT2004 - 18-1/2" Green Turbo
The green turbo is perfect for paint protection installs and can be cut down to smaller sizes.

GT2004 - 19" Green Turbo (Soft)
The Speed Wing is designed with "wings" to enable the installer to reach areas typically out of the reach of most bump, Bondo, Teflon and hard cards. The Speed Wing comes with one flat edge and one curved edge. Speed Wing is made from materials that enable it to slide across most film surfaces easily while maintaining its rigidity to lay the material flat and remove moisture or air trapped underneath.

GT237 - Sunny Tucker
This wrap tool provides multi-functionality use by allowing the installer to reach edges and body lines like never before. The tool is a must have if you apply any graphics to challenging surfaces.

GT1000 - Mac Tac Felt Squeegee
Recommended for paint protection or vinyl graphic installations. The soft felt is designed to avoid scratching.

GT2077-4 - 4" Cherry Speed Wing (Soft)
The Speed Wing is designed with "wings" to enable the installer to reach areas typically out of the reach of most bump, Bondo, Teflon and hard cards. The Speed Wing comes with one flat edge and one curved edge. Speed Wing is made from materials that enable it to slide across most film surfaces easily while maintaining its rigidity to lay the material flat and remove moisture or air trapped underneath.

GT2092 - Wrap Cut Knife Replacement blade for the Wrap Cut Knife, WCKNIFE. Each blade has 4 available cutting edges. 10 blades per pack.

GT2077-6 - 6" Cherry Speed Wing (Soft)

GT2077-8 - 8" Cherry Speed Wing (Soft)

GT2092 - PPF Hybrid 4" Paddle Squeegee
The Fusion PPF Hornet is the latest in paint protection film installation tools. This triple-durometer paddle squeegee offers the handler two durometers to install with. The black install side measures in at a firm but flexible 80 durometer and the yellow side at a softer more pliable 70 durometer.

GT2077-4 - 4" Cherry Speed Wing (Soft)
The Speed Wing is designed with "wings" to enable the installer to reach areas typically out of the reach of most bump, Bondo, Teflon and hard cards. The Speed Wing comes with one flat edge and one curved edge. Speed Wing is made from materials that enable it to slide across most film surfaces easily while maintaining its rigidity to lay the material flat and remove moisture or air trapped underneath.

GT2077-6 - 6" Cherry Speed Wing (Soft)

GT2077-8 - 8" Cherry Speed Wing (Soft)

GT2092 - PPF Hybrid 4" Paddle Squeegee

The black install side measures in at a firm but flexible 80 durometer and the yellow side at a softer more pliable 70 durometer.

WCKNIFE - Wrap Cut Liner Knife
The Wrap Cut Knife is made specifically to cut through just the liner side of any pressure-sensitive vinyl graphic and wrap film so there is no more risk of damaging your film or adhesive or cutting through the film side of your vinyl while on its backing paper. This knife will leave no marks or cut lines in the film when used properly. This knife is made with a solid steel shaft with a special Teflon coating on the bottom surface to protect the vinyl and adhesive. This Teflon coating allows the knife to slide across the adhesive side of the vinyl, giving you a clean and easy cut through the release liner. Use it on the vehicle, boat, etc. or while on the cutting table inside the shop. This knife works anywhere and is compatible with most adhesive types and all brands of pressure sensitive vinyls and release liners.

WES - Wet Edge Squeegee
Wrap your vehicles faster and better. The only squeegee applicator made to use wet. No scratches, no marks, just smooth motions that easily glides across vinyl films and painted surfaces without worry of mistakes or damage. The Wet Edge Squeegee is a Teflon squeegee with a unique microfiber bonded to it. Can be used either wet or dry. Colors will vary.

WG1 - Wrap Gloves, 1 Pair
Vehicle wrap gloves are sold in pairs and is a must have for anyone installing vinyl graphics and vehicle wraps. Installing with your bare hands can cause over stretching and puckering of the vinyl as well as potential damage from the transfer of oils on your skin. These lint-free and durable wrap gloves reduce friction while handling the material giving you great results every time.
GT960 - Low-E Coating Detector
Detects the presence and location of thermal-resistant (Low-E) coatings used on energy-efficient single and dual-pane glass. Never requires calibration. Powered by a 9-volt battery (included).

GT961 - Insulated Glass Thickness & Gap Gauge
Used to measure glass and air space thickness in sealed insulated glass (IG) units. Laser reflections off the glass surfaces appear on the graduated scale of the gauge allowing you to easily determine the thickness of the glass and the air space separating the pieces of glass inside a sealed IG unit. Powered by two standard AAA alkaline batteries (included).

GT962 - Heat Lamp Unit
Great tool for tabletop presentations. Powered by a 110-volt power cord (plug in).

GT963 - UV Light Source Lamp
Excellent tool for demonstrating and measuring how much UV light window film blocks. Powered by four standard AA alkaline batteries (NOT included).

GT964 - Digital BTU Meter
This wide-spectrum digital meter measures the solar radiant energy intensity directly transmitted through glass (or the film-glass combination) in units of BTUs per square foot per hour or watts per square foot. This tool shows the relative effectiveness of various films in blocking solar radiant heat. Especially useful for showing how a darker film may allow more energy to pass through than a much lighter metallic film. Powered by a 9-volt battery (included).

GT966 - Digital BTU and Transmission Meter
Use this meter to evaluate solar performance. It provides excellent resolution; reading low light conditions accurately with no need for adjustments. The digital display toggles between UV intensity and transmission percentage mode. 9-volt battery (included).

GT967 - Heat Lamp
Great tool for tabletop presentations. Powered by a 110-volt power cord (plug in).

GT968 - Insulated Glass Thickness & Gap Gauge
Used to measure glass and air space thickness in sealed insulated glass (IG) units. Laser reflections off the glass surfaces appear on the graduated scale of the gauge allowing you to easily determine the thickness of the glass and the air space separating the pieces of glass inside a sealed IG unit. Powered by two standard AAA alkaline batteries (included).

GT969 - Tougthened Glass Meter
Used to determine which panes in a window unit are heat treated. Knowing this allows use of films that would otherwise be inappropriate on regular annealed glass. Full set of user instructions and leather case included (120-volt).

GT970 - TM2000 Inspector II
The TM2000 Inspector II is the newest in light meter technology allowing you to measure ALL windows on vehicles with auto-calibration accurate to within +/- 2%. This meter is 75% smaller than older models and carries a 1 year manufacturer’s warranty.

GT971 - Soft Case for Meters & Accessories (Case Only)
Carry all your meters, glass samples and accessories in this soft-sided case.

GT972 - Digital Tape Measure
This meter uses a narrow beam to measure distances instantly, even through door openings and in crowded rooms. Lifetime lithium battery included.

GT973 - UV Sentry Meter
Position the meter facing a UV source, such as sunlight or a heat lamp and turn the meter on. Place various materials between the meter and the UV source and the resulting UV transmission percentage will be displayed.

GT974 SOFT - Professional Meter Sales Kit - with Soft-sided Case
A complete package for convenient and convincing sales demonstrations. Includes slots for glass samples, meters, lamps, literature and more. Kit includes: GT969 Digital BTU & Transmission meter, GT962 Heat Lamp Unit, GT973 UV Meter, GT963 UV light and soft case with carrying strap. Note: Glass samples are not included in the kit.

GT975 - Strengthened Glass Detector
Allows users to confirm if glass has been strengthened. The detector can test single or multiple panes of glass in a window at once from either side. As a bonus, the detector can even identify the thickness of the first pane of glass in the window. 9-volt alkaline battery (included).

GT976 - Glass Sample Set
Conduct your sales demonstration more effectively by including glass samples to help illustrate the benefits of film over standard glass. Set includes two clear single pane, two clear IG units and two low-E coated panes.

GT977 - Laser Thermometer
Reads temperatures of solid surfaces. Most accurate when used within three feet of a surface. Demonstrate heat reduction by taking a reading of a solid object in the room, such as furniture, before and after the film is installed to show the difference window film makes. Not to be used on glass. 9-volt alkaline battery (included).

GT978 - Spectrum Detector Meter
Demonstrate three performance characteristics at once: UV visible light, and infrared transmission. This is an effective way to show that film will help prevent fading. Simply slide a glass sample into the opening and see the resulting values displayed. No additional light sources are needed. Comes in a convenient padded carrying case. 9-volt alkaline battery (included).

GT979 - Tint Check Auto Meter
Measures visible light transmission (VLT) on roll down windows. A smaller meter that fits comfortably into a shirt pocket. Calibrated to a NIST traceable standard.

GT980 - Tint Check + TC2800 Automotive Meter
Measures visible light transmission (VLT) on roll down windows. Includes ALL the benefits of the TC1800 (GT2035) plus features a backlit LCD display making it much easier to read in low light conditions. Reads to the nearest tenth percent for greater accuracy. Calibrated to a NIST traceable standard.

GT981 - Enforcer II
The TM1000 Enforcer II is a light-weight and pocket-sized automotive tint meter. It comes equipped with a coin cell battery that will last for up to 2,500 uses and is auto-calibrated. For rolldown windows only.
We have everything you need.

Tools
Inside this catalog, you will find the most extensive selection of film installation tools available today. We carry several well-known brands of knives, blades, scrapers, squeegees, hard cards and much more!

Accessories
We offer a wide variety of installation accessories for every job from sprayers to slitters. There is something for everyone and every application challenge.

Customer Support
At Madico, we understand the value of strong customer relationships. We are committed to providing each of our customers with honest communication and fast, courteous service and support. Whether you need tools, accessories, marketing support or just have a question; we’re here for you.
- Your Madico customer service team.
