

Safety & Security Film Systems  
Installed by Factory-Certified  
Glazing Professionals

Madico SafetyShield Premier Partners are a global network of factory-trained and certified, consulting dealers who specify, contract and install customized safety & security film solutions worldwide. Premier Partners can identify the best system for your building as well as provide peace of mind that your property and its occupants are better protected from natural disasters, terrorism, and industrial accidents.

### *Madico Premier Partners Offer:*

- Multiple safety glazing systems engineered to protect people and property against explosions, acts of violence, vandalism, intrusion, threatening weather and industrial accidents.
- Many years of experience in government, institutional and industrial security glazing systems.
- A dedicated technical, sales and support staff ready to assist in evaluating facility needs.
- Comprehensive film and attachment system testing with reports available upon request.
- A complete product offering including three proprietary attachment systems which are exclusive to SafetyShield Premier Partner dealers.
- Security laminates covering a full range of thicknesses from 7 mil to 15 mil, including solar and security, specifically designed to meet or exceed specified testing standards.

Each Madico SafetyShield Premier Partner is supported and backed by Madico, Inc. Madico has been providing quality, safety & security window film and attachment solutions for over 40 years.
